Sir

Subj - Appointment of Six literate persons for a period of two months on Rs 40/- each for surveying House Connections in the City

---

I write to state that Municipal Council at their meeting held on 13-11-1955 have resolved that 6 literate persons on a pay of Rs 40/- each per month be appointed for a period of two months for conducting survey of house connections in the City

In this connection I write to state that it is reported by the Municipal Engineer that there is a large number of unauthorised connections in the City, that the existing staff cannot cope up with the work of examining such connections and that it is essential to appoint six literate persons to examine all the unauthorised connections in detail and to make a complete and up-to-date list of such connections by a survey of all water connections in the City He also reports that the water tax of the Municipality will be increased by conducting such a survey work Such a survey work is necessary not only from the view point of taxing the unauthorised connections but also to prevent, wherever necessary, objectionable connections to ensure equitable distribution of water The cost in this behalf works out nearly Rs 360/- per month and the same will be met out of the anticipated increased tax that would be realised

I therefore request that the sanction of Government be accorded to the proposal of the Municipal Council at an early date, as the surveying work has to be taken up on hand

A copy of the resolution of
referred to above is herein enclosed for k.
